S: STATISTICS AUSTRIA, Vital statistics. Compiled on 17 September 2019. - According to the list of first name variations, etymologically related first names were pooled (in cooperation with the Institut für Corpuslinguistik und Texttechnologie der Österreichischen Akademie der Wissenschaften [ICLTT], linguistic-onomastic editing: Mag. Dr. Angela Bergermayer). Statistics are based upon the most common spelling of the first given name. From 1984 to 2009 only first names of babies with Austrian citizenship are covered. From 2010 onwards, all first given names, independent of citizenship, are included.
